

Forms of Energy

- Across**
- 2 Stored energy and the energy of position (2 words)
 - 8 The energy of position - such as a rock on a hill (2 words)
 - 9 An example of the energy of motion
 - 10 the vibration and movement of the atoms and molecules within substances (2 words)
 - 11 The movement of atoms, molecules, waves and electrons (2 words)
 - 12 Electromagnetic energy traveling in transverse waves (2 words)
 - 13 An example of nuclear energy
 - 14 the energy stored in the center of atoms (2 words)

- Down**
- 1 An example of radiant energy (2 words)
 - 3 The movement of electrons (2 words)
 - 4 The amount of useful energy you get from a system (2 words)
 - 5 The movement of objects and substances from place to place
 - 6 Energy stored in the bonds of atoms and molecules (2 words)
 - 7 The movement of energy through substances in longitudinal waves
