

Learn to
SAVE
ENERGY
with
POWER BEAR

ELECTRICITY is energy we use every day. It helps us do things more easily!

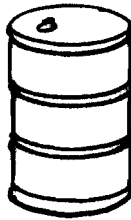

We use these RESOURCES to generate ELECTRICITY.

COAL

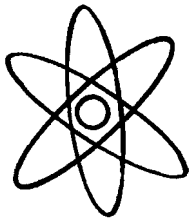

OIL

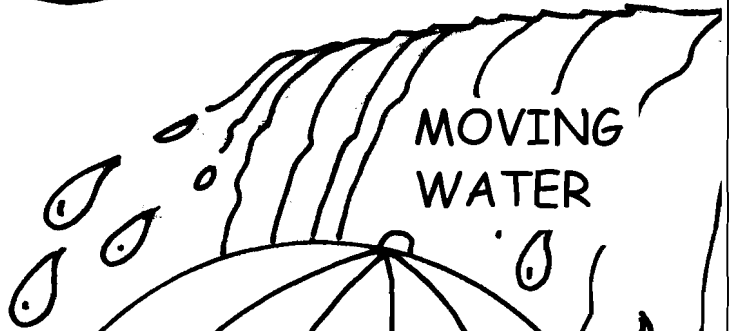

NATURAL
GAS

WIND

ATOMS
(nuclear)

MOVING
WATER

Learn to
SAVE
ENERGY

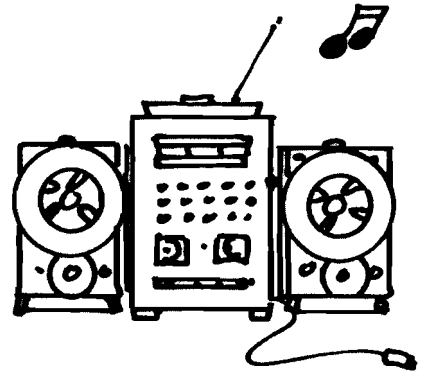

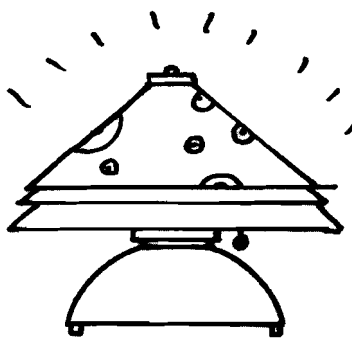

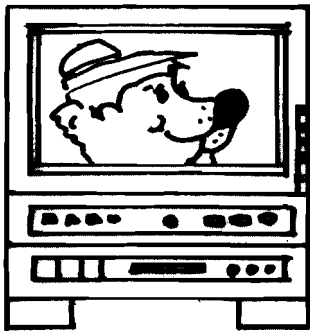

so it will last a
l-o-n-g time!

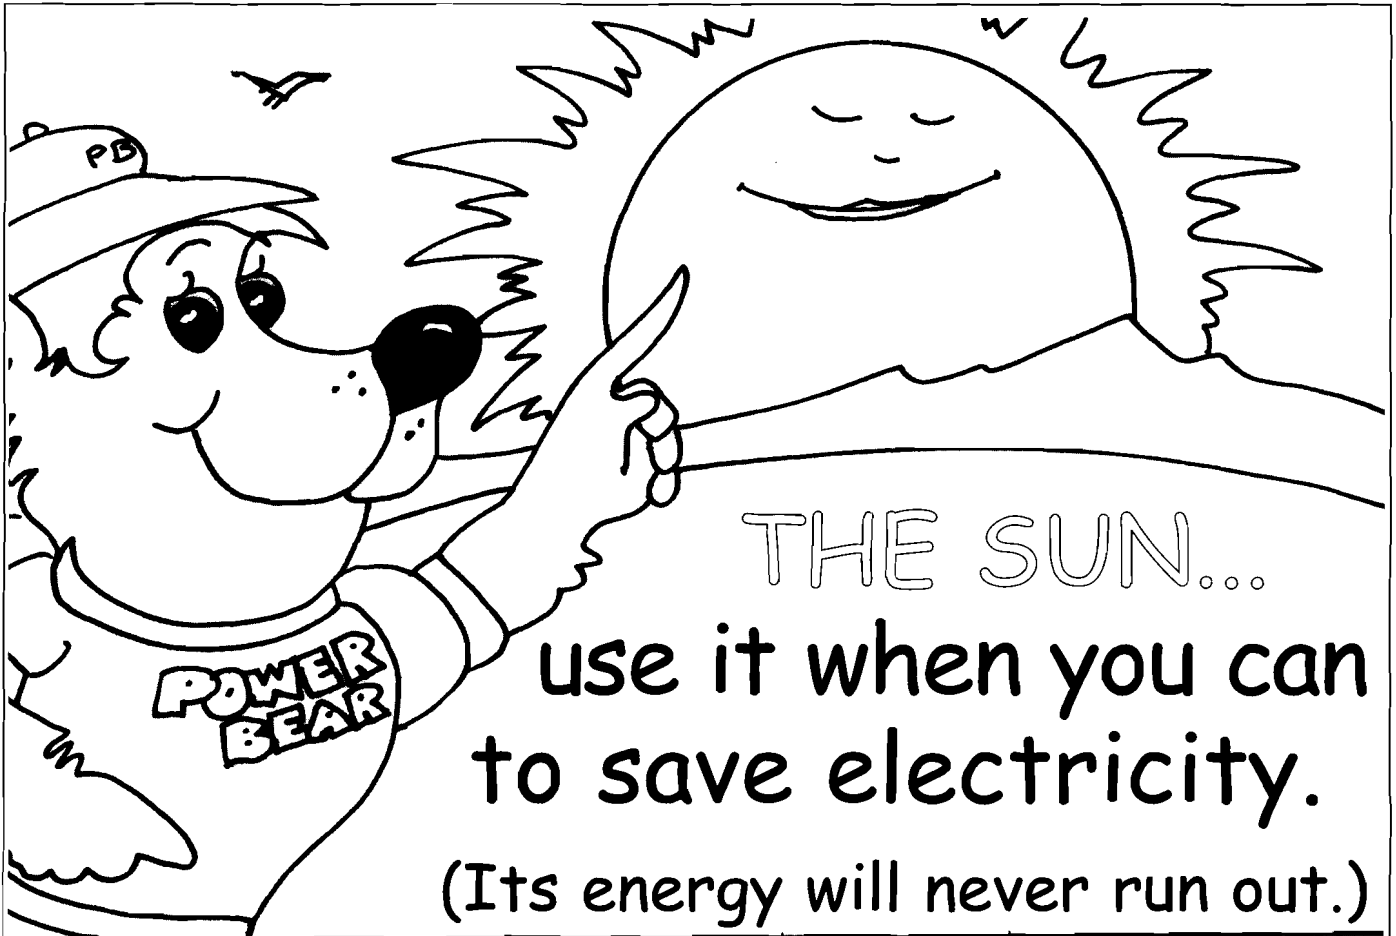

Don't be an

ENERGY
WASTER

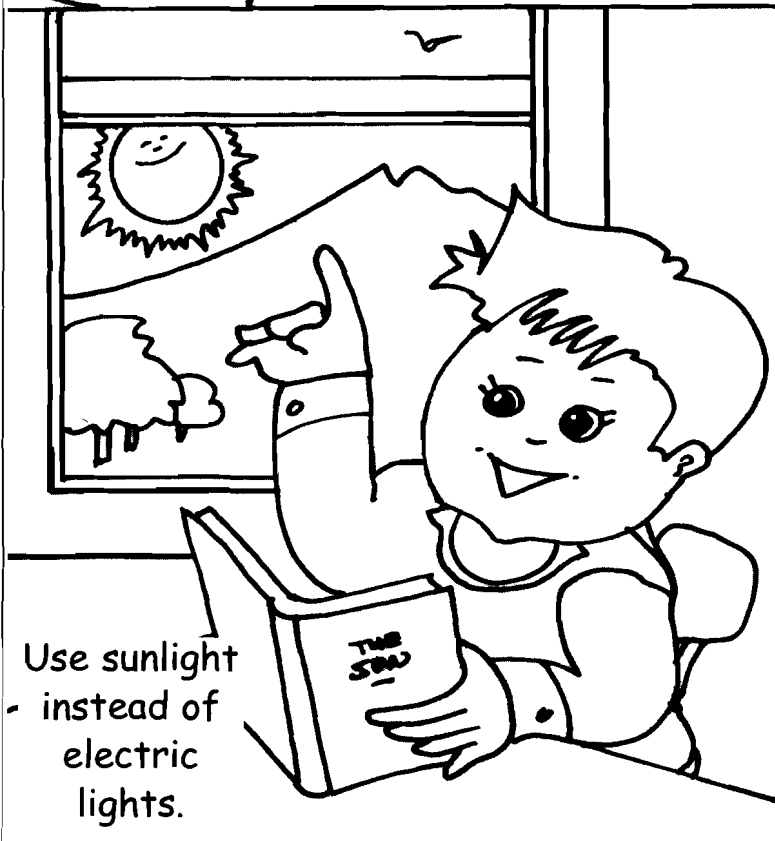

Turn these
things off
when no one
is using
them.

Fill in the spaces to identify the things that need to be turned off.

THE SUN...
use it when you can
to save electricity.
(Its energy will never run out.)

Use sunlight
instead of
electric
lights.

Open curtains
on cold days
to let the
sun's heat in.

In the WINTER, wear warm clothes inside the house.

(This lets Mom or Dad turn the heat down!)

REMEMBER...

Shut the door tight to keep the heat IN and the cold air OUT.

SHUT the CURTAINS in the
summer to keep the sun's
HEAT OUTSIDE.

Wear clothes made of light
colors to keep you cool.

Help POWER BEAR look for more ways to save energy around your house!
